

ErmaFlex #10s

Multitec Transfer Table Module

Motorised roller conveyor for transferring pallets

multitec transfer table module at a glance

➤ Family of components addressed

Displacement (⌚ Roller conveyors)
Electrical energy (⌚ Asynchronous motor)

➤ Educational activities

Functional analysis and study of technologies and construction solutions (3D SolidWorks)

Assembly, disassembly (e.g. disassembly of gear motor, replacement of a conveyor roller) and electrical connection

Mechanical adjustments (e.g., edge adjustment for pallet entry or exit)

➤ Features

L/ W/ H: 1000 x 1250 x 500 mm

Electrical power: 400 V 3-phase + Neutral, via Multitec

This system is accompanied by a technical and educational file

Bac Pro MSPC
