

SKF Bearing Maintenance Bench

For mounting and dismounting of bearings and alignment of shafts

Description of the teaching aid

SKF bearing maintenance bench with two mounting stars and a demonstration unit for practising a number of common mounting and dismounting techniques. Consists of :

- ✓ The TMDS 6 star: six trees
- ✓ The TMDS 9 star: nine shafts, six of which can be used at the same time.
- ✓ The 729152 unit has a shaft mounted on an L-shaped bracket.
 - Demonstration of the mounting and dismounting of an SKF spherical roller bearing on a tapered seat and an SKF deep groove ball bearing in a blind bearing.
 - demonstrations at customers' premises or trade fairs.
 - Training material.

The TMDS 6, TMDS 9 and 729152 do not include any tools, bearings or accessories. TMDS 6/1 and TMDS 9/1 include the mounting star and all necessary tools.

BAC PRO MSPC - BTS MS

Educational activities

- ✓ Training rooms or during demonstrations.
- ✓ Demonstration of the assembly and disassembly of a spherical bearing

729152

TMDS6

TMDS9

Highlights

- ✓ Intervention bench
- ✓ 12 types of bearings
- ✓ Special tool set
